Professional Summary

Quality Assurance Engineer with 5+ years of experience in Manual & Automation Testing across healthcare, pharma, banking, and technology domains. Skilled in **API Testing, Database Validation, Mobile Testing, Cross-browser Testing, and Agile methodologies** with hands-on experience in **Selenium WebDriver, Postman, SQL**, and knowledge of CI/CD validation. Experienced in **payment systems, chatbot testing, SOP creation, compliance validation, and Generative AI applications in QA** including AI-driven test case generation and defect analysis. Strong track record in **defect management, release validation, and delivering high-quality software solutions**. Immediate joiner, adaptable to remote and hybrid work environments.

Core Competencies

- Automation Testing: Selenium WebDriver, Playwright, Page Object Model, CI/CD integration
 - Manual Testing: Functional, Regression, Smoke, Cross-browser, Mobile
 - API & Database Validation: Postman, SQL, PostgreSQL, Snowflake
 - Defect Management: JIRA, Trello, Azure DevOps
 - Agile Delivery: Sprint-based QA, Requirement clarity, Release validation
 - AI Knowledge: Generative AI software testing, AI rubric testing fundamentals
-

Technical Skills

- Tools: Selenium WebDriver, Playwright, Postman, JIRA, Trello, Azure DevOps, Pg4admin
- Testing Types: Functional, Regression, Smoke, API, Database, Cross-Browser, Mobile
- Databases: SQL, PostgreSQL, Snowflake
- Methodologies: Agile, Waterfall, SDLC, STLC
- Platforms: Web Applications, Mobile Applications, WordPress

- AI Knowledge: AI-assisted rubric validation, Generative AI testing concepts
-

Professional Experience

Infosys – Test Engineer (Jun 2025 – April 2026)

- Validated REST APIs and backend data using Postman + SQL.
 - Created SOPs for QA processes, improving compliance and onboarding.
 - Applied Generative AI models for test case generation and defect prediction.
 - Implemented Rubrics Testing methodology for requirement clarity.
 - Validated REST APIs and backend data with Postman + SQL, ensuring 100% accuracy in production releases.
 - Worked on **Generative AI testing** including AI-generated response validation, prompt testing, output accuracy checks, and AI-assisted test case generation.
 - Applied AI rubric testing concepts for validating response quality, consistency, and business requirements.
 - Collaborated with developers and business teams for defect tracking, requirement clarification, and release validation.
-

SymmetryRx – Quality Assurance Analyst (Sep 2023 – Jun 2025)

- Designed and executed test cases for pharmaceutical workflows, achieving 98% compliance with healthcare regulations.
 - Performed API and database validation, eliminating 20+ critical defects in prescription workflows.
 - Created automation-ready scenarios, boosting automation coverage by 30%.
 - Executed cross-browser/device testing, improving platform stability across 5+ environments.
-

AgileWay – QA Analyst (Apr 2023 – Sep 2023)

- Executed functional, smoke, and regression testing for agile-based applications.
 - Managed defect lifecycle using Jira, reducing resolution time by 20%.
 - Conducted API testing with Postman, improving integration reliability.
-

Sofueled Medial Pvt. Ltd. – QA Analyst (Jun 2022 – Feb 2023)

- Developed reusable test cases, increasing test efficiency by 25%.
 - Conducted API testing and WordPress web validation, ensuring 100% data accuracy for medical device systems.
 - Performed cross-platform testing, enhancing user experience across devices.
-

Midbrain Technologies – QA Analyst (Jan 2021 – Apr 2022)

- Designed and executed test cases for education and e-commerce platforms.
 - Validated data security and compliance requirements, ensuring zero breaches during audits.
 - Supported QA tool adoption and process improvement, raising team productivity by 15%.
-

Project Experience

- Enterprise Customer Portal (Infosys): Automated regression suites, cutting test cycle time by 30%.
 - Healthcare Compliance Platform (SymmetryRx): Validated workflows, ensuring 100% regulatory compliance.
 - E-Commerce Order Management: Automated checkout/payment flows, reducing defect rate in transactions by 25%.
-

Education

Bachelor of Engineering – Information Technology

Certifications

- Certified in Software Testing with Generative AI and Rubric Testing Fundamentals (Knowledge-based certification)
